

- 1) Open your web browser and type in “wetransfer” and tap the first link - it ought to specify the web address <https://wetransfer.com>.

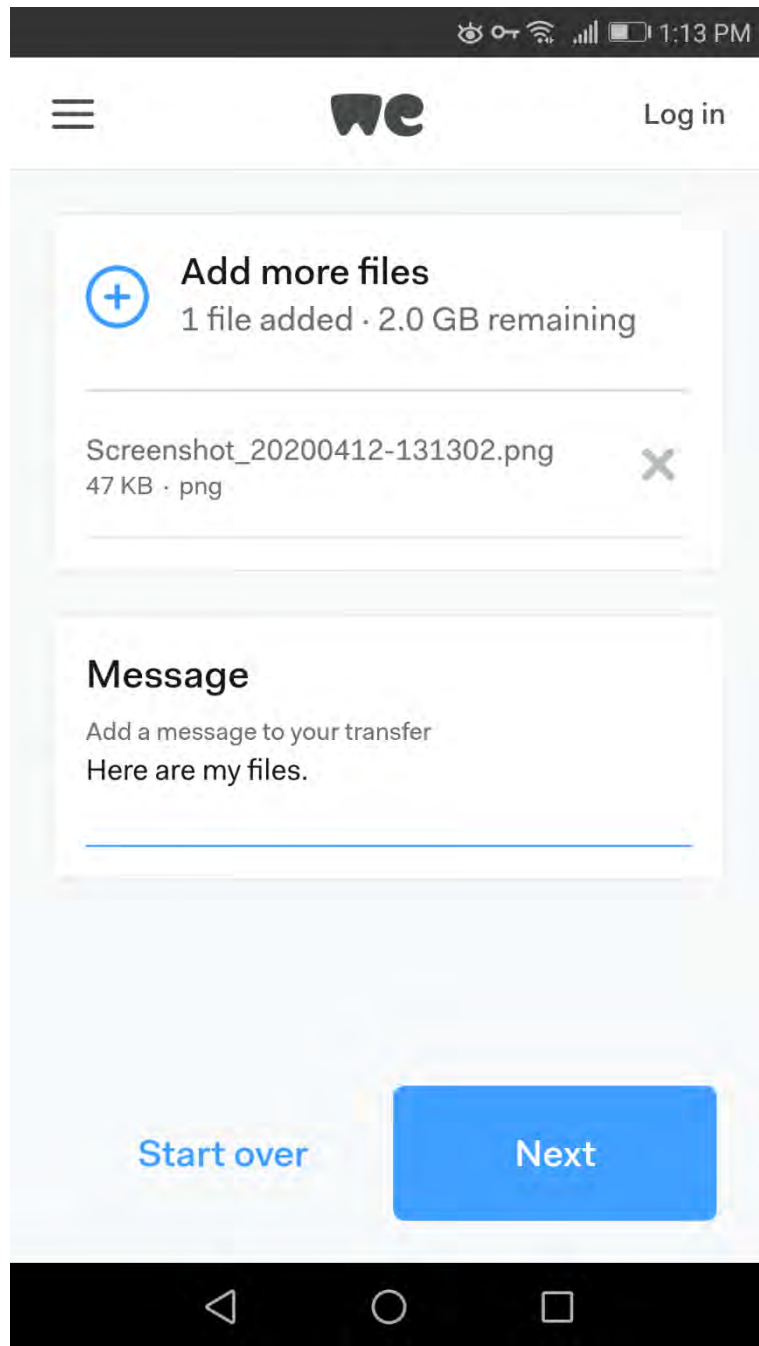

2) Tap "Send a file?"

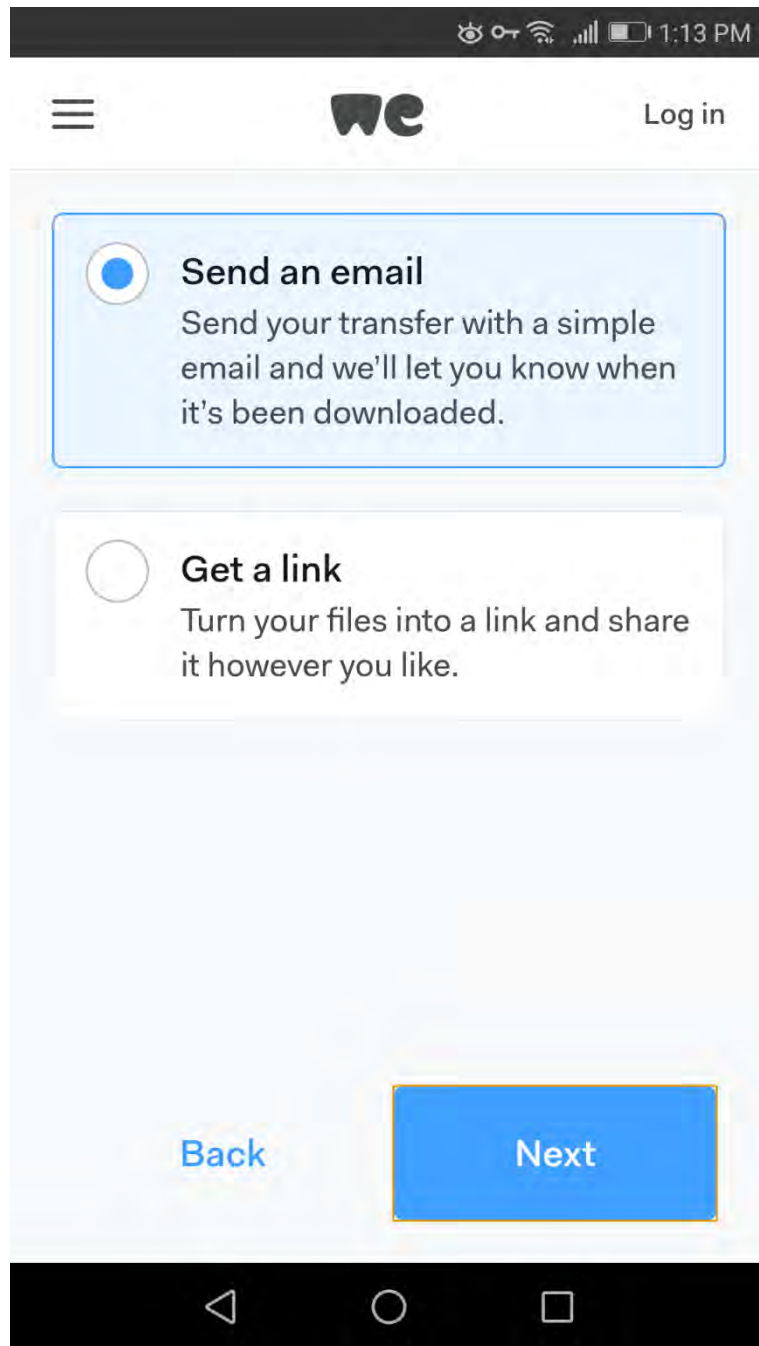

3) Tap "I agree"

4) Tap “+” to add your files

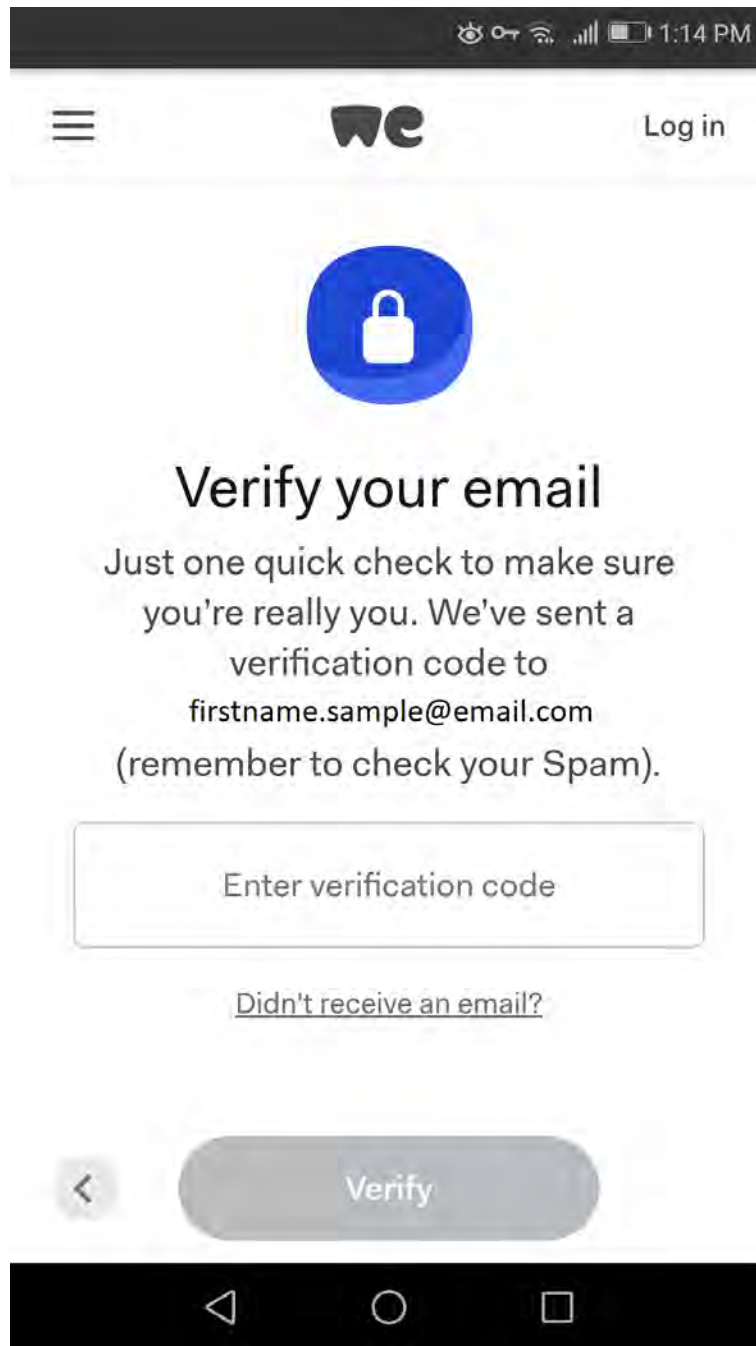

5) Review your files and add a message

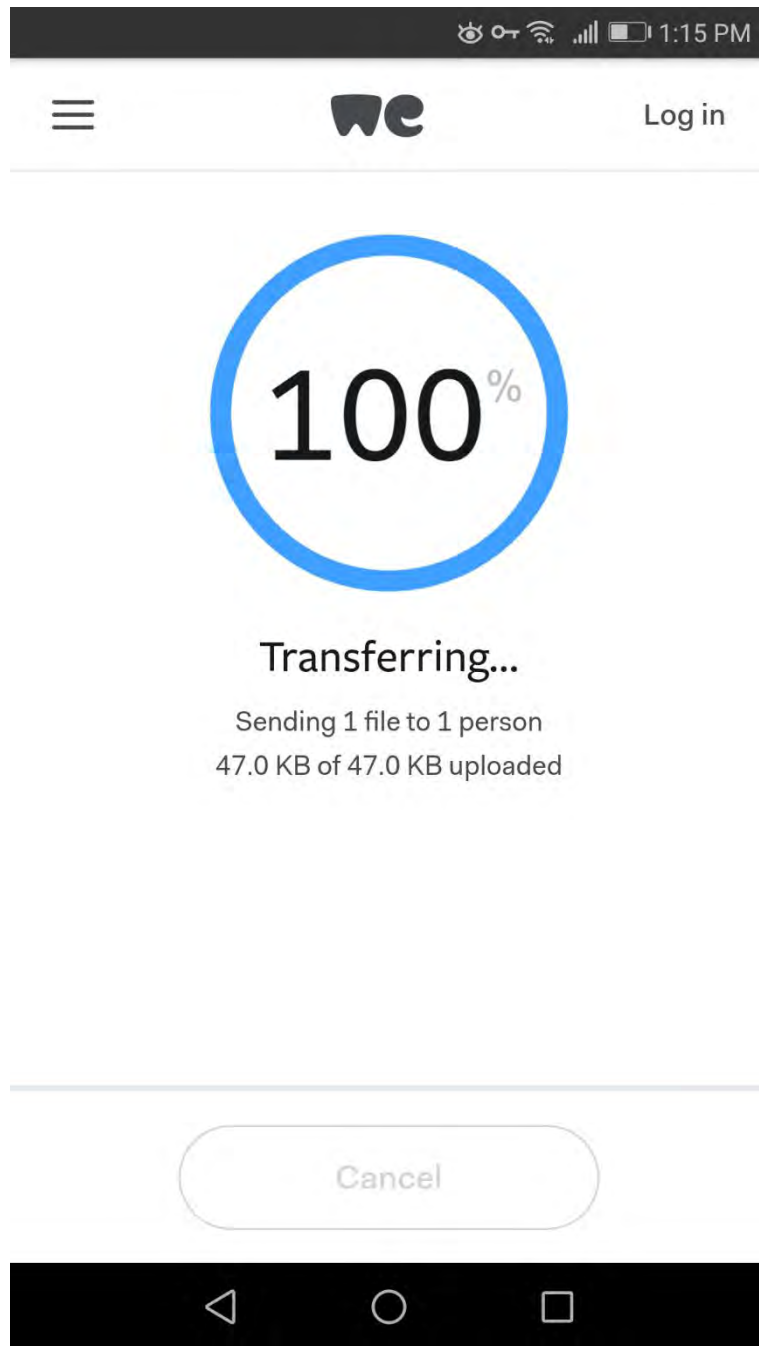

6) Select “Send an email” and tap “Next”

The screenshot shows a mobile application interface. At the top, there is a status bar with icons for signal, Wi-Fi, and battery, and the time 1:14 PM. Below this is a navigation bar with a hamburger menu icon on the left, a logo with the letters 'wc' in the center, and a 'Log in' link on the right. The main content area is titled 'Add email addresses'. It contains a text input field with the email address 'office@campbellandsons.co.nz' pasted into it. Below this is a label 'Email to' followed by an empty text input field. Further down is a label 'Your email' followed by a text input field containing 'firstname.sample@email.com'. At the bottom of the form area, there are two buttons: a blue 'Back' button and a larger blue 'Transfer' button. The entire interface is set against a light blue background.

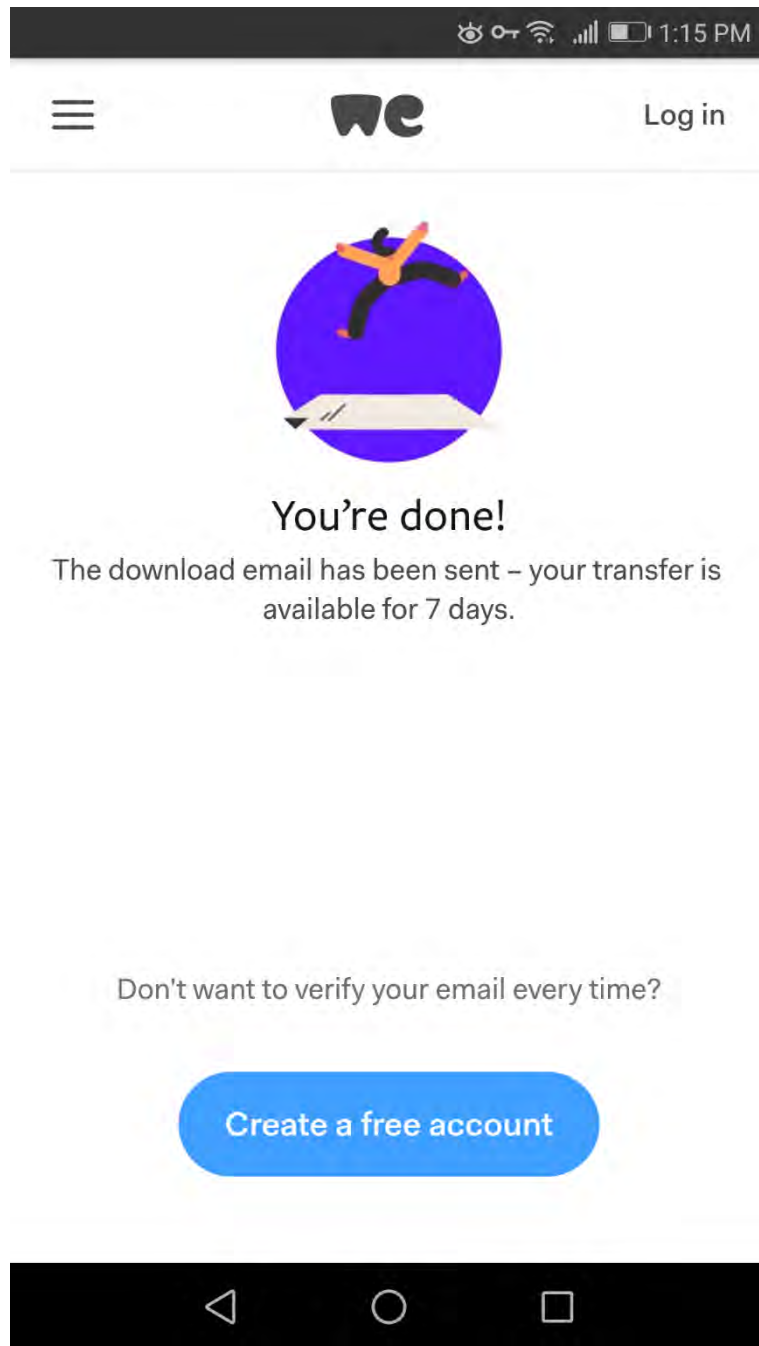

7) office@campbellandsons.co.nz - type this email address into the “Email to” section, and fill in your own email address down the bottom.

8) You will be sent a verification code (e.g. 12345) – open up your emails and check. If you do not see an email, check your spam box. Type in the code and tap “Verify”.

9) Your files will begin transferring, do not close your browser until the file transfer is complete.

10) Once your files have been sent, you can close your browser.
